### Research Papers

Mechanisms of synergism in the mutagenicity of cadmium and <i>N</i> -methyl- <i>N</i> -nitrosourea in <i>Salmonella typhimurium</i> : the effect of pH (MTR 04279) by R. Mandel and H.J.-P. Ryser (U.S.A.)	1
Aflatoxin B <sub>1</sub> activation to a plasmid mutagen by a chemical model of cytochrome P-450 (MTR 04286) by M.L. Wood, J.R. Lindsay Smith and R.C. Garner (Great Britain)	11
Lethal and mutagenic effects of 8-methoxypsoralen-induced lesions on plasmid DNA (MTR 04256) by J.M. Paramio, C. Bauluz and R. de Vidania (Spain)	21
Detection of point-mutation mutagens in <i>Aspergillus nidulans</i> : Comparison of methionine suppressors and arginine resistance induction by fungicides (MTR 04255) by N.M. Martinez-Rossi and J.L. Azevedo (Brazil)	29
Positive correlation between the occurrence of chromosome breakage and the induction of point mutations associated with male recombination 31.1 MRF system of hybrid dysgenesis in <i>Drosophila melanogaster</i> (MTR 04251) by G. Yannopoulos and N. Stamatis (Greece)	37
Study of the base analog 6-mercaptopurine in the mouse specific-locus test (MTR 04278) by L.B. Russell and P.R. Hunsicker (U.S.A.)	47
Reciprocal translocations in germ cells of male mice receiving external $\gamma$ -irradiation (MTR 04258) by A. Bayrakova, G. Filev, I. Baev and I. Kalina (Bulgaria and Czechoslovakia)	53
Effects of H-2 complex and non-H-2 background on urethane-induced chromosomal aberrations in mice (MTR 04277) by N. Miyashita, S. Migita and K. Moriwaki (Japan)	59
Enhanced spermatogonial stem cell killing and reduced translocation yield from X-irradiated 101/H mice (MTR 04281) by B.M. Cattanaach and M.J. Kirk (Great Britain)	69
Linear dose-response relationship of erythrocyte enzyme-activity mutations in offspring of ethylnitrosourea-treated mice (MTR 04261) by D.J. Charles and W. Pretsch (F.R.G.)	81
The fate of X-ray-induced chromosome aberrations in blood lymphocyte culture (MTR 04247) by B.C. Das and T. Sharma (India)	93
Effects of repair inhibition in the G <sub>1</sub> phase of clastogen-treated human lymphocytes on the frequencies of chromosome-type and chromatid-type aberrations and sister-chromatid exchanges (MTR 04250) by K. Kishi (Japan)	105
Persistence of SCE-inducing damage in mouse embryos and fetuses following superovulation (MTR 04276) by L. Elbling and M. Colot (Austria)	117
The mutagenicity of 5-azacytidine and other inhibitors of replicative DNA synthesis in the L5178Y mouse lymphoma cell (MTR 04274) by D.E. Amacher and G.N. Turner (U.S.A.)	123
Uncoupling of the induction of mutations and sister-chromatid exchanges by the replication of 5-bromouracil-substituted DNA (MTR 04275) by E.R. Kaufman (U.S.A.)	133
Sister-chromatid exchanges induced by mitomycin C after exposure of human lymphocytes in G <sub>0</sub> to a low dose of X-radiation (MTR 04287) by J.E. Moquet, D.C. Lloyd, J.S. Prosser and A.A. Edwards (Great Britain)	143
Formaldehyde mutagenesis and formation of DNA-protein crosslinks in human lymphoblasts in vitro (MTR 04283) by T.R. Craft, E. Bermudez and T.R. Skopek (U.S.A.)	147
SCE levels in Bloom-syndrome cells at very low bromodeoxyuridine (BrdU) concentrations: Monoclonal anti-BrdU antibody (MTR 04272) by Y. Shiraishi and Y. Ohtsuki (Japan)	157
Metabolic activation of emodin in the reconstituted cytochrome P-450 system of the hepatic microsomes of rats (MTR 04284) by H. Tanaka, N. Morooka, K. Haraikawa and Y. Ueno (Japan)	165

Mutagenicity of halogenated and other substituted dinitrobenzenes in <i>Salmonella typhimurium</i> TA100 and derivatives deficient in glutathione (TA100/GSH <sup>-</sup> ) and nitroreductase (TA100NR) (MTR 04288) by P.R.M. Kerklaan, S. Bouter, J.M. te Koppele, N.P.E. Vermeulen, P.J. van Bladeren and G.R. Mohn (The Netherlands) . . . . .	171
Mutagens formed from butylated hydroxyanisole treated with nitrite under acidic conditions (MTR 04289) by M. Mizuno, A. Ohara, G. Danno, K. Kanazawa and N. Nataka (Japan) . . . . .	179
Comparative mutagenicity of halogenated pyridines in the <i>Salmonella typhimurium</i> /mammalian microsome test (MTR 04297) by L.D. Claxton, K.L. Dearfield, R.J. Spanggord, E.S. Riccio and K. Mortelmans (U.S.A.) . . . . .	185
Mechanism of the desmutagenic effect of humic acid (MTR 04293) by T. Sato, Y. Ose, H. Nagase and K. Hayase (Japan) . . . . .	199
Micronucleus induction by low doses of X-rays in <i>Vicia faba</i> root tips (MTR 04290) by M. Rizzoni, E. Vitagliano, M.C. Marconi, A. Sottili and B. Gustavino (Italy) . . . . .	205
Monitoring the exposure of rats to 2-acetylaminofluorene by the estimation of mutagenic activity in excreta, sister-chromatid exchanges in peripheral blood cells and DNA adducts in peripheral blood, liver and spleen (MTR 04285) by M.I. Willems, W.K. de Raat, R.A. Baan, J.W.G.M. Wilmer, M.J. Lansbergen and P.H.M. Lohman (The Netherlands) . . . . .	211
A comparison of the radiation-induced mutation at the HGPRT locus in V79 and BHK cells (MTR 04282) by G.J. Cambray, C.J. Roberts, S.K. Carver and P.D. Holt (Great Britain) . . . . .	225
Meiotic non-disjunction induced by fission neutrons relative to X-rays observed in mouse secondary spermatocytes II. Dose-effect relationships after treatment of pachytene cells (MTR 04280) by F. Pacchierotti, A. Russo and P. Metallì (Italy) . . . . .	233
Studies on radiation-induced chromosome aberrations in mouse spermatocytes I. Stage specificity and dose-response relationships of chromosome aberrations induced in mouse primary spermatocytes following X-irradiation (MTR 04292) by Y. Matsuda and I. Tobari (Japan) . . . . .	243
Studies on radiation-induced chromosome aberrations in mouse spermatocytes II. Dose-response relationships of chromosome aberrations induced at zygotene stage in mouse primary spermatocytes following fast neutron- and <sup>60</sup> Co γ-irradiations (MTR 04291) by Y. Matsuda, H. Ohara and I. Tobari (Japan) . . . . .	251
Effects of busulfan on murine spermatogenesis: cytotoxicity, sterility, sperm abnormalities and dominant lethal mutations (MTR 04294) by L.R. Bucci and M.L. Meistrich (U.S.A.) . . . . .	259
Exposure of female mice to ethylene oxide within hours after mating leads to fetal malformation and death (MTR 04295) W.M. Generoso, J.C. Rutledge, K.T. Cain, L.A. Hughes and P.W. Braden (U.S.A.) . . . . .	269
Contents, Vol. 176 (1987) . . . . .	275
